

NAME

xo_set_syslog_enterprise_id - Set the enterprise identifier for syslog content

LIBRARY

Text, XML, JSON, and HTML Output Emission Library (libxo, -lxo)

SYNOPSIS

```
#include <libxo/xo.h>
```

void

```
xo_set_syslog_enterprise_id(unsigned short eid);
```

void

DESCRIPTION

The **xo_set_syslog_enterprise_id()** function records an enterprise identifier used for subsequent **xo_syslog(3)** calls. Enterprise IDs are defined by IANA, the Internet Assigned Numbers Authority:

<https://www.iana.org/assignments/enterprise-numbers/enterprise-numbers>

SEE ALSO

xo_syslog(3), **libxo(3)**

HISTORY

The **libxo** library first appeared in FreeBSD 11.0.

AUTHORS

libxo was written by Phil Shafer <phil@freebsd.org>.
