

NAME

zeitgeist-datahub - passive loggers for Zeitgeist

SYNOPSIS

zeitgeist-datahub [*OPTION*]

DESCRIPTION

zeitgeist-datahub is a daemon which centralizes all passive data sources into a single process, and interfaces between said data sources (also known as *loggers*) and **zeitgeist-daemon** (with which it communicates via D-Bus).

Passive data sources are those which run in the background and look for activities independently to the programs they monitor, whereas Zeitgeist can also work with **active** data sources which are those in-build into other applications (either natively or through extensions).

OPTIONS

The program follows the usual GNU command line syntax, with options starting with two dashes ('--'). A summary of options is included below.

Currently there are no options available.

SEE ALSO

zeitgeist-daemon

BUGS

Please report any bugs on <https://gitlab.freedesktop.org/zeitgeist/zeitgeist/issues>.
