NAME

    zip_error_get, **zip_file_error_get** - get error codes for archive or file (obsolete interface)

LIBRARY

    libzip (-lzip)

SYNOPSIS

    #include <zip.h>

    void

    zip_error_get(*zip_t *archive*, *int *zep*, *int *sep*);

    void

    zip_file_error_get(*zip_file_t *file*, *int *zep*, *int *sep*);

DESCRIPTION

    The functions **zip_error_get**() and **zip_file_error_get**() are deprecated. Use zip_error_code_system(3),
    zip_error_code_zip(3), zip_file_get_error(3), and zip_get_error(3) instead.

    For **zip_error_get**(), replace

```
    int ze, se;
    zip_error_get(za, &ze, &se);
with

    int ze, se;
    zip_error_t *error = zip_get_error(za);
    ze = zip_error_code_zip(error);
    se = zip_error_code_system(error);
```
    For **zip_file_error_get**(), replace

```
    int ze, se;
    zip_file_error_get(zf, &ze, &se);
with

    int ze, se;
    zip_error_t *error = zip_file_get_error(zf);
    ze = zip_error_code_zip(error);
    se = zip_error_code_system(error);
```

SEE ALSO

libzip(3), zip_error_code_system(3), zip_error_code_zip(3), zip_file_get_error(3), zip_get_error(3)

HISTORY

zip_error_get() was added in libzip 0.6. It was deprecated in libzip 1.0, use **zip_get_error**(),
zip_error_code_zip(), / **zip_error_code_system**() instead.

zip_file_error_get() was added in libzip 0.6. It was deprecated in libzip 1.0, use **zip_file_get_error**(),
zip_error_code_zip(), / **zip_error_code_system**() instead.
