

NAME

zip_error_strerror - create human-readable string for zip_error

LIBRARY

libzip (-lzip)

SYNOPSIS

```
#include <zip.h>
```

```
const char *
```

```
zip_error_strerror(zip_error_t *ze);
```

DESCRIPTION

The **zip_error_strerror()** function returns an error message string corresponding to *ze* like **strerror(3)**. This string will stay valid until the next call to **zip_error_strerror()** or until **zip_error_fini(3)** is called.

SEE ALSO

libzip(3), **strerror(3)**, **zip_error_fini(3)**

HISTORY

zip_error_strerror() was added in libzip 1.0.
