

NAME

zip_source_seek_write - set write offset in zip source

LIBRARY

libzip (-lzip)

SYNOPSIS

```
#include <zip.h>
```

int

```
zip_source_seek_write(zip_source_t *source, zip_int64_t offset, int whence);
```

DESCRIPTION

The function **zip_source_seek_write()** sets the current write offset for *source*. Just like in **fseek(3)**, depending on the *whence* argument, the *offset* is counted relative from:

SEEK_SET	start of file
SEEK_CUR	current write offset in file
SEEK_END	end of file

RETURN VALUES

Upon successful completion 0 is returned. Otherwise, -1 is returned and the error information in *source* is set to indicate the error.

SEE ALSO

libzip(3), zip_source(3), zip_source_begin_write(3), zip_source_commit_write(3), zip_source_rollback_write(3), zip_source_tell_write(3), zip_source_write(3)

HISTORY

zip_source_seek_write() was added in libzip 1.0.
